## SKILLS

- **Languages:** Shell scripting, Python, Solidity
- **Frameworks:** HTML and CSS.
- **Tools/Platforms:** Splunk ,RHEL-Linux, Git, Wireshark, Nmap
- **Soft Skills:** Resilient, Team Player, Project Management, Adaptability.

## INTERNSHIP

### Training from RHEL Academy

June-July 2024

**About:** Participated in a summer training program focused on the Linux system administration. I gained hands-on experience in shell scripting and the structure linux file system.

**Tech stacks used:** linux terminal, shell scripting

### Mastercard Cybersecurity Virtual experience|forage

February 2025

- Completed a job simulation where I serve as a analyst on Mastercard's security Awareness team.
- Help identify and report security threats such as phishing
- Analysed and identified which area of business needed more robust security training and implementation
- training and producers for those teams

## PROJECTS

### CAFE WEBSITE

APRIL 2024

This project is a website for a cafe. It provides information about the cafe, its menu, and contact details. The website uses HTML, CSS, and JavaScript to create a visually appealing and responsive layout.

**Tech:** HTML, CSS and JavaScript.

### Service Monitoring Script

July 2024

This project contains a Bash script that monitors essential services like httpd and sshd on MyComp servers. The script checks if the service is running, restarts it if needed, and sends a notification email to the system administrator if a restart occurs. The script can be automated using cron to run at regular intervals, ensuring continuous monitoring

**Tech:** Shell Scripting

### MessageStorage Smart Contract

October 2024

store a personal message on the blockchain and retrieve it later. Messages are stored securely and can only be retrieved by the user who stored them. The contract enforces a limit of 100 characters per message to ensure efficient storage.

**Tech:** Solidity

### Expense tracker

July 2024

Expense Tracker A simple, easy-to-use Python desktop application designed to help you track and manage your daily expenses. The application features a user-friendly interface built with Tkinter and stores expense data in an SQLite database for persistent storage.

**Tech:** python

## CERTIFICATES

- Digital forensics investigator | QuickHeal January 2025
- CompTIA Security+|CompTIA February 2025
- Get started with AI and Machine learning | LinkedIn learning March 2023
- Bootcamp on CompTIA Linux+ February 2023
- SQL for Data science | Great Learning May 2024

## ACHIEVEMENTS

- Over 2000 points at TryHackMe.
- Participated in multiple CTF events.
- Competed in Web3 Hackathon

## EDUCATION

- **Lovely Professional University** Punjab, India  
*Bachelor of Technology - Computer Science and Engineering; CGPA: 6.7* Since August 2022
- **Lemer Public School** Thriprayar, Thrissur  
*Intermediate; Percentage: 75 %* April 2018- March 2020
- **Lemer Public School** Thriprayar, Thrissur  
*Matriculation; Percentage: 90 %* April 2016 - March 2018
